

# Pacific Research Technology, Inc.

## Sources The World

Pacific Research purchases from over 1000 suppliers around the world and can locate components faster than most distributors. In business since 1980, Pacific Research has established close and long term relationships with both suppliers and customers. These successful alliances, coupled with a high degree of knowledge and experience, allow Pacific Research to provide customers with significant advantages, including:

- 24 Hour Response Time
- Most Competitive Pricing
- Worldwide On-Time Deliveries
- Access to International Markets
- Guarantees Meeting Manufacturers' Specs
- Handling Export Documentation
- Exceptional Understanding of Market Trends
- Negotiating Pricing
- Providing Price Comparisons
- Placing Orders
- Expediting Orders
- Handling Logistics
- Identifying New Products
- Identifying New Suppliers

## Hard To Find Components

Pacific Research can help you locate any hard to find electronic components, including:

- |              |                       |                   |                     |                      |
|--------------|-----------------------|-------------------|---------------------|----------------------|
| - Batteries  | - Filters             | - Motors          | - Relays/ Timers    | - Transformers       |
| - Capacitors | - Fuses               | - Oscillators     | - Resistors         | - Transistors        |
| - Chokes     | - Hardware            | - Optoelectronics | - Resistor Networks | - Voltage Regulators |
| - Connectors | - Heat Sinks          | - P.C. Boards     | - Sockets, Plugs    | - Wire/ Cable        |
| - Crystals   | - Integrated Circuits | - Potentiometers  | - Switches          | - Obsolete Items     |
| - Diodes     | - Lamps               | - Power Supplies  | - Terminal Boards   |                      |
| - Fans       | - LED's, Displays     | - Rectifiers      | - Thermistors       |                      |
